## FOREWORD

Home decor is no new topic in this era. Home decor has evolved since our stone age era. For example, say, that's why you can see people drawing painting on the wall of the caves which they called their home. Kept fire lighting everywhere. Made some aromatic accessories. They also made sculptures and artwork. Although their core reasons must be that they were creating history, or say they used fire for light, aromatic plants and spices to keep any rodents away, sculptures and art work to highlight their belief and culture etc.

Although you shouldn't judge a book by its cover, we believe it is acceptable to assess a home by its entrance in many circumstances.
